

SHAC 01/24/2018:

Big Decisions

April 16-27 during their computer class as opposed to their health class due to some STAAR training that is going on during the beginning of the health class.

Vision/Hearing Screenings

1st Screening was done on 10/05/17, we had the Leakey Lions Club volunteers come and they got them all done in 1 day. I did a 2nd screening for the PreK and Kinder students who failed the 1st time. Referrals will be going out next week and in them there will be a flyer for Sight for Students, which is a program for financial help to purchase glasses. Also the Lions Club helps students get glasses as well.

Cafeteria Update

They are trying out substitutions for PreK-3rd on certain foods that they seem to not like. (Ex: PBJ for them on sloppy joe days)

Also are rearranging the fridges due to one of them going out. Steve is on the look-out for another small 2-door fridge to replace the one we lost.

Hands-Only CPR Completed

Class was done on January 4th, was able to complete at 20 JRs and the 3 new SRs that were needed.

New CPR Mannequin Requirements

By January 1, 2019, all mannequins must have lights to monitor compressions.

Adults \$135 (we need 2)

Child \$114 (need 1)

Card and book prices have also changed so each person will cost about \$15-20 to be certified through the school.

Other changes are that the class rosters will have to be sent in 3-weeks prior to the scheduled class instead or after the class was conducted.
