November 11, 2020

Dear Nueces Canyon Community:

The District has been notified that a high school student has tested positive for COVID-19. We have contacted county health officials and our school attorney's, who indicate that we do not need to close campuses or quarantine anyone without symptoms. Campuses and buses will be deeply sanitized tonight, and all District employees and students are instructed to continue to follow CDC guidelines and recommendations and to practice social distancing. We are also instituting as a preventive measure that all staff, students, and visitors will be required to wear masks and will be reinforcing our hand washing practices with everyone on campus.

Based on the information that we have gathered, and although no one was exposed within 48 hours of the beginning of symptoms, we want you to know that the end of the 14-day incubation period for anyone possibly exposed on campus to the student is November 20, 2020. If you have questions or concerns about this or your family's safety, please contact me.

Out of an abundance of caution, we advise you to monitor your health, follow the CDC guidelines for people who have had close contact and contact your primary care physician if you develop symptoms.

NCCISD is continuing to monitor this situation and will provide additional information as needed. We pray for a successful recovery for our student.

Respectfully,

Kristi Powers
Superintendent
