

Who is NCCISD authorized to give a rapid COVID-19 test?

NCCISD has been authorized by the Texas Education Agency to test Nueces Canyon CISD students and staff members only. NCCISD does not have the authority or testing supplies to test members of the community. For the safety of all NCCISD staff members, testing is by appointment only. All testing is voluntary – no student or staff member can be directed to take a test. There will be days when testing is not available depending on personnel availability. NCCISD also makes the final determination on whether or not to test an individual.
